

Communicate your Science:

How to get involved in public engagement activities in marine sciences in and around Bremen

Ulrike Prange

MARUM Science Communication Team

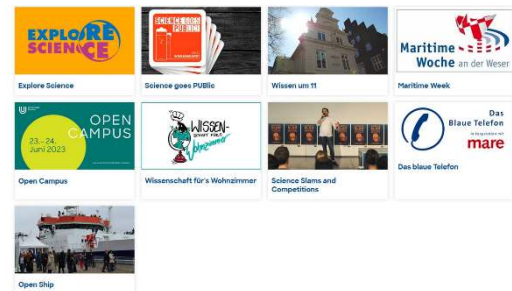

with contributions from

Dr. Rebecca Jackson and Isabel Lange

4 February 2025

14.00 – 17.00 hrs.

MARUM I, room 2060

Objectives

Science communication and outreach are intended to be a link between science and the general public. This means communicating not only the results but also the whole process of research.

This short course will give you an overview of the activities of the MARUM Science Communication team and the formats in which you can get involved.

Topics include

- Aims of science communication
- Overview of MARUM's outreach activities for different target groups
- Overview of established and new formats, examples of individual formats
- Possibilities to get involved
- Let's discuss your idea to communicate your research project!

Examples of science outreach activities will be given by

Isabel Lange	Science goes PUBlic
Rebecca Jackson	Explore Science

Target group

Marine researchers with an interest in communicating (their) science to the public

Registration

To register for this course, please visit

<https://www.marum.de/en/research-training/2025/2025-02-04.html>

Please note that your registration will be binding.

If we don't receive a critical number of registrations by **28 January 2025**, the course will have to be cancelled.
