

GLOMAR - Bremen International Graduate School for Marine Sciences

MARUM offers for its Graduate School (<http://www.marum.de/en/GLOMAR.html>) within the research theme

„Ocean and Climate“

the following open position under the condition of job release:

Associate Scientist / Postdoc (part time 50% TV-L 13)

This position is limited to the 11-months period October 1, 2013, to August 31, 2014, as it fills a vacancy created by parental leave of the position holder.

Applicants are required to have a PhD in one of the following fields:

Paleoceanography, Physical Oceanography, Climate Modelling

The main tasks of the Associate Scientists will be to stimulate interdisciplinary exchange within the Graduate School, in establishing topical courses and monthly PhD workshops, and in supporting the PhD students. In addition, the Associate Scientists are expected to develop their own research linked to the research area "Ocean and Climate". Our webpage gives information about research topics presently covered by the school's scientists.

Applicants should submit under the reference number **A 209/13** a letter of motivation, their CV and publication list, and a brief outline of their own research plans (max. 1000 words) preferably by e-mail to **glomar[at]marum.de**. In addition, they are requested to arrange for one letter of reference to be sent to the same e-mail address. Deadline for the applications is **September 1, 2013**.

As the University of Bremen intends to increase the proportion of female employees in science, women are particularly encouraged to apply. In case of equal personal aptitudes and qualification priority will be given to disabled persons. We welcome applications of people with migrant background.
